# INTRODUCTION

HILL DIRECTORY CO., Inc., publishers of Southeastern Directories, present to subscribers and the general public, this, the 1934 edition of the Wilmington City Directory.

Confidence in the growth of Wilmington's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Wilmington to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Wilmington Directory will fulfill its mission as a source of authentic information pertaining to the city.

## Four Major Departments

The four major departments are arranged in the following order:—

**THE BUYERS' GUIDE**, pages 17 to 36, printed on tinted paper, contains the advertisements of leading manufacturing, business and professional interests of Wilmington. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Wilmington, the necessity of having this kind of information immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

**THE ALPHABETICAL LIST OF NAMES** of residents and business and professional concerns is included in pages 37 to 441. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Wilmington, and the name, official personnel, nature and address of each firm and corporation in the city.

**THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE**, covers pages 445 to 539. In this section the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street.

**THE CLASSIFIED BUSINESS DIRECTORY** is included in pages 541 to 601. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such it plays an important part in the daily activities of the commercial

and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

### **Municipal Publicity**

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a port, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Wilmington.

### **The Wilmington Directory Library**

Through the courtesy of the publishers of the Wilmington City Directory, a Directory Library is maintained in the offices of the Wilmington Chamber of Commerce, for free reference by the general public. This is one of nearly 450 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

## Statistical Review

Form of Government—Commission.

Population—32,270 (1930 U. S. Census report for city proper); 37,500, local estimate at present.

Area—4.5 square miles.

Altitude—30 feet.

Climate—Mean annual temperature, 63 degrees F.; average annual rainfall, 53 inches.

Parks—4, with total of 225 acres, valued at \$325,000.

Assessed Valuation—\$45,000,000.

Bonded Debt—\$3,096,500.

Financial Institutions—2 national banks and 1 state bank and trust company, with total deposits of approximately \$7,000,000 (Jan. 1, 1934), and total resources of approximately \$8,750,000 (Jan. 1, 1934).

Telephones in Service—4,500.

Churches—70, representing all denominations.

Building and Construction—Value of building permits, approximately \$400,000, with 175 new dwelling units constructed (1933). Wilmington is headquarters for the Ethyl-Dow Chemical Co., which built, in 1933, a three-million-dollar plant to extract bromine from ocean water.

Industry—Principal industries: Manufacturing and shipping. 110 establishments, employing normally 14,000 men and 5,700 women, paying wages of \$14,000,000 annually, and having products valued at \$50,000,000 annually. Principal manufactured products: Fertilizers, lumber, sugar, tobacco products, petroleum products, cotton goods and molasses.

Trade Area—Retail area extends 75 miles inland, and contains population of 225,000; wholesale area extends 150 miles inland, and contains population of 400,000.

Newspapers—2 dailies (morning and evening); also 1 white weekly and 1 colored weekly.

Hotels—4, with total of 400 rooms.

Railroads—3: Atlantic Coast Line; Seaboard Air Line; Wilmington, Brunswick & Southern.

Amusements—4 theatres, with total seating capacity of 4,200 persons.

Hospitals—5, with total of 255 beds.

Education—8 schools, including 2 high. Number of pupils in public schools, 9,250; in private, 450. Number of teachers, 182. Value of school property, public and private, approximately \$1,800,000.

City Statistics—Total street mileage, 150, with 54 miles paved. Miles of gas mains, 71; sewers, 74; electric street railway, 21. Daily average pump of water works, 3,000,000 gallons; value of plant, \$1,250,000. Fire department has 60 men, with 4 stations and 8 pieces of motor equipment. Police department has 42 men, with 1 station and 5 pieces of motor equipment.

## General Review

Wilmington is strategically situated on the Cape Fear River, blessed by nature with a variety of resources and kept up-to-date by the hand of man. It possesses both trunk-line rail and deep-water transportation, which give it low

freight rates and permit quick freight movements in great volume.

Wilmington is both important as a port and as an industrial city, while it is the pivotal point for a rich and large agricultural area, and is the trading center for fully 225,000 people, the city being their nearest, as well as largest, market.

As a port, it possesses a fresh-water harbor 28 miles from the bar. Ice is an unknown quantity in the river, which has a deep channel, up and down which go big ocean steamers, bound for Europe, Latin America and other foreign shores. The Federal Government recently completed the deepening of the channel in the river to thirty feet at mean low water, as well as the Intra-Coastal Canal from Beaufort to Wilmington, giving connections with Baltimore, Philadelphia, New York and Boston.

Wilmington's exportations and importations are large and ever-growing, which mark a successful port. As a cotton port, it sends forth approximately two hundred thousand bales per year. Its imports cover a large field in variety and come from practically every quarter of the globe. Wilmington ranks as the second largest fertilizer port on the Atlantic Seaboard, and its volume of petroleum products is such that practically seventy-five per cent of the state's consumption passes through the port. Wilmington also has a tremendous volume of molasses importation, which serves a half dozen states, as well as a large amount of lumber handled in both coast-wise and foreign trade. Recent increase of port volume has been evidenced in large tobacco exports and growing imports of sugar.

Regardless of conditions, the past few years have witnessed big building operations. Among recent enterprises located here are several large fertilizer factories, the Atlantic Refining Co., the Galena Signal Oil Co., the American Molasses Co., Southland Mfg. Co., Wilmington Veneer Corp., Dupont Nitrates Co., W. R. Grace & Co., Nehi Bottling Co., Corbett Crate Co., Gulf Refining Co., Cities Service Co., Pure Oil Co., National Oil Co., Shell Oil Co. and the North State Creosoting Co., thus supplementing the city's already large number of such industries.

Wilmington is the natural gateway of North and South Carolina, intermediate between the whole territory and Richmond.

Wilmington is North Carolina's seaport city, the gateway of her commerce and trade. North Carolina is a vast state in area, larger than New York or Pennsylvania, and almost as large as New England. Wilmington is the natural distributing point for North Carolina and parts of South Carolina and Georgia. Think what it would mean if all New England had only one such distributing seaport, and it will then be realized why Wilmington must grow and is growing to meet the demands of this vast territory whose bountiful natural resources have hardly been touched.

From the Middle West the Panama Canal is in more direct communication via Wilmington than by any other South Atlantic seaport, and cargoes to and from Wilmington are not subject to the dangers of Cape Hatteras.

Wilmington is the center of the greatest vegetable-producing district in the United States. A few years ago no strawberries were raised except for domestic use; now Wilmington is the center of the largest strawberry-raising district in the world. It is the largest lettuce-producing district in the world, and next to the largest peanut market.

Wilmington's outlets by rail and water are the Atlantic Coast Line and Seaboard Air Line systems; Wilmington, Brunswick & Southern Railway; the North Carolina Line operating the Steamer State Port over the Intra-Coastal Canal; Norfolk, Baltimore & Carolina Line; Railway Express Agency, Inc., and foreign services.

Wilmington has a wonderful climate; no extreme heat or extreme cold. Average summer temperature, 78 degrees; average winter temperature, 48 degrees. The normal rainfall is 53 inches; average annual clear days, 132 (New York, rainfall, 44 inches; clear days, 118; New Orleans, rainfall, 57 inches; clear days, 109). The mild climate and diversified opportunities make this city and section a haven for home-seekers.

The Wilmington district is one of the greatest trucking regions in the United States, and the yield for this early crop is valued at nearly eighteen million dollars annually.

Nearest Atlantic port to the Ohio gateways, and nearer Cincinnati than Charleston by fifteen miles, and Savannah, by thirty miles.

Has immense terminals that can load sixteen ocean-going ships at one time, providing them with over 600,000 square feet of warehouse space.

In the World War Wilmington had two immense shipyards. It had the honor of possessing the only Government-owned steel shipyard in the South, and first Government-owned concrete yard in the country. These yards have been converted into important industrial centers.

The commerce on the Cape Fear River at and below Wilmington last year averaged approximately 1,250,000 tons, with valuation of more than \$50,000,000.

South of Hatteras, thus assuring safety to vessels from Latin America and other countries to the south of the United States, this port occupies a strategic position of advantage to those countries.

Cape Fear River never has ice, which permits year-round navigation, and the climate is never so cold that it makes outdoor work a hardship or discomfort.

Wilmington has many fertilizer factories, petroleum products terminals, lumber plants, and a number of fish-packing plants, with large payrolls. It has the handsomest custom house in the South, costing more than \$700,000. This city is the home station of the Coast Guard Cutter Modoc.

Wilmington has become a new and important inland waterway canal terminal since the completion, in the spring of 1932, of the extension from Beaufort to the Cape Fear River. This link provides accommodations for heavy traffic over a protected inland channel twelve feet deep and ninety feet wide, connecting up with points as far north as New York and Boston.

Wilmington has two immense cotton compresses and a marine railway. The steel shipyard operated during the war by the George A. Fuller Co. is being converted into an industrial center. The concrete shipyard property is owned by the city and will be developed into municipal wharves and public terminals and warehouses. This has been offered the State of North Carolina as a location for State-owned terminals and warehouses, whenever such are necessary. Wilmington now has one of the finest and most efficiently operated systems of private terminals at any

Southern port, and the city's principal stevedoring corporation holds the record for all South Atlantic ports for quick dispatch of cargo.

With both water and rail transportation, thus affording quick hauls and low freight rates, and near the scenes of raw materials, Wilmington is a splendid spot for manufacturing industries. Two big railroad systems—the Atlantic Coast Line and the Seaboard Air Line—place the city near the great coal fields and the iron-producing zones.

Wilmington has cotton garment mills, wood and metal works, cement concerns, cotton factories, candy factories, machine shops, big fertilizer factories, sawmills, oil stations, etc. A fine cold storage plant is located here.

This is a leading banking center, local banks having total deposits of approximately \$7,000,000.

Jobbing business runs into several million dollars in value annually, and retail merchants do a wide business, as the city is the trading Mecca for a section containing 225,000 population.

City of big weekly payrolls. Annual payrolls normally \$14,000,000, distributed among thousands of employees.

Headquarters of Atlantic Coast Line System, employing locally about two thousand men and women. Monthly payroll of Coast Line nearly \$400,000.

Wonderful year-'round climate, and a health record praised by the United States Government.

The Wilmington section has crop-growing days to the number of 250, which is the equal of northern Mexico, though with the advantage of an ample and equable rainfall.

Wilmington is the terminus of six major highways of North Carolina's splendid good roads system, and the city is also an important point on the Atlantic Coastal Highway extending from Portland, Maine, to Miami, Fla.; the Calhoun Highway from Athens, Ga., to the ocean at Wilmington, and Federal Routes 17, 17-I, 74 and 421.

Wilmington is a city of fine streets, fine parks, beautiful homes, great churches and modern schools, in a county netted by good roads, the superior not to be found anywhere. It is a place of up-to-date amusements, with some of the best beach resorts on the South Atlantic Coast within thirty minutes' ride of the city. Wrightsville Beach, eight miles east of the city, is an island resort of fame and renown. It is connected with the mainland by excellent half-hour trolley service and causeway to Harbor Island just west of the beach. Carolina, Wilmington and Fort Fisher beaches, south of the city, are the only resorts on the North Carolina coast where one can drive directly to the ocean in an automobile. The four beaches attract approximately 300,000 visitors every summer.

The Wilmington Chamber of Commerce is alive to the city's great advantages and is always eager to answer all questions and to extend hearty co-operation. Write the Chamber of Commerce for any information desired.

**TRADE!** You like  
to patronize those concerns  
who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

It directs buyers from all parts of the community to your business and to any particular service which they may require.

The advertisers stand out as the leading and permanently progressive firms of the community.

You should make it easy for people to find you by putting in the directory such information as a buyer wants to know.

For FREE suggestions on how to make your advertising most effective write—

Hill Directory Co.  
Publishers  
Richmond, Va.

## The Sign over your door

tells the passer-by that you are there ready to serve him.

But you also want to tell people, in all parts of the community, where you are and what you do.

The sign is only seen, however, by the small portion of the population who pass your way. Being fixed, it cannot reach out and tell somebody, a good prospect, on the other side of town about your business.

But

## TRADE! You like to patronize those concerns who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

**THE PUBLISHERS**

# THE CITY DIRECTORY

represents the City and its  
institutions in every cor-  
ner of these United States

**Are You Properly  
Represented In It?**

---

**The Classified portion  
catalogues the professions  
and goods handled here**

**ARE YOU LISTED UNDER YOUR PROPER HEADING  
SO THE PROSPECTIVE BUYER CAN FIND YOU?**

---

***“Think It Over”***

# **When You Want to Know:**

- where a person lives.
- what his occupation is.
- who lives at a certain number on a street.
- where a street is located.
- the correct spelling of a name.
- the officers of a corporation.
- the partners in a firm.
- the solution to any of scores of problems that pop up unexpectedly to annoy and baffle you.
- you can quickly find the answer in the City Directory.

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

## 1934

Copyright, 1934, by Hill Directory Co., Inc.

In the following list the named streets are arranged in alphabetical order, followed by the numbered streets in numerical order, the intersecting streets being shown. The number of each building on the street is given in numerical order, and opposite the number is placed the name of the occupants or houseowner or tenant. In the business blocks containing offices the occupants are shown by room numbers where practicable, in apartment homes the number denotes the number of the apartment. In all streets both sides of the street are included in one list. The profession or business of individuals or firms is given only at their respective place of business; to find occupation of others refer to Alphabetical List of Names.

\*\*\*Denote no houses between intersections where appearing.

# CITY DIRECTORY USES

## 1. SALES PROMOTION:

### a. Sales Analysis—

Comparing present amount of business obtained in a given area with possible maximum business in that area. The Householders' Directory shows the classes of business located on a street, in office buildings, in sections of the city, etc. In checking up salesmen's calls on business in an assigned territory the directory presents a picture of how many places have not been reported upon, and shows a ready list of prospects for your goods or service.

### b. Leads—

Determining proper official to approach for sales interview. The alphabetical listing for each business and professional concern, shows the names of the owners, partners or officers.

### c. Selected districts—

Determining parts of city best suited for increasing business. The Householders' Street Directory shows the exact type of business or residences along each street of the city—and shows if the occupant of the home is the owner.

### d. Building mailing lists and direct mail campaigns—

1. **List of local people (Neighborhood List)** within a given radius of Business location. On a city map, draw a circle to include the territory you wish to cover in your neighborhood list. From the map you can obtain the name of each street with intersections in the circle you have drawn. In the Householders' Street Directory you will find the correct name of the occupant at each house, or building on these streets. This will give you a 100% list of the territory desired.
2. **Lists of business houses and the professions**—The business directory at the end of the book classifies every business and profession according to the nature of the business. Complete lists such as doctors, lawyers, printers, garages, auto dealers, furniture stores, contractors, etc., can be found in this classified directory section.
3. **Vocational Lists**—Such as clerks, stenographers, telephone operators, carpenters, salesmanagers, purchasing agents, laborers, etc. The alphabetical directory shows the occupation of every individual in the city.

Run over the alphabetical pages—check marking the persons whose occupation is the one wanted for your list. This will give you a complete and accurate list for the entire city.

## 2. CREDIT:

### a. Verifying customer's statements and information.

### b. Information about customer.

Correct name, address, where employed and wife's name is given in the alphabetical directory for every individual. Whether he rents or owns home is usually shown in the Householders' Directory.

### c. Determining character and stability of applicant for credit.

This directory gives his present occupation and residence. By referring to each yearly edition of the directory for the past few years, it is quickly determined whether the applicant holds the same job and residence, or flits from one job to another and one residence to another. After the new directory is delivered to you keep the old one on file. Never destroy it. You'll find old ones invaluable in checking your past records.

# FOR EVERY BUSINESS

## d. Identifying applicant and applicant's references.

The alphabetical directory gives complete information for each individual. (See Information about customer). The references given by the applicant for credit, can be identified in the same manner—who they are, what position they hold, etc.

## e. Collecting accounts.

Tracing and locating debtor. Locating other members of debtor's family or relatives.

## 3. DELIVERY AND SHIPPING:

### a. Routing—laying out route for delivery.

Use description of streets in the Householders' Street Directory, with an indexed map of the city for locating and laying out delivery route.

### b. Obtaining correct addresses.

Where numbers on shipping instructions are not plain, or only street is given, the correct number can be found in the alphabetical or Householders' Street Directory.

### c. Locating streets, buildings, un-numbered houses.

A full description of every street—with location is given in the Householders' Street Directory. When the address given is an apartment or building without street and number being given, the alphabetical section will give you the correct street and number for that building. Many buildings on streets are not numbered—or badly numbered—making it difficult to find the building wanted. The Householders' Street Directory shows the location of the buildings along the streets.

## 4. PURCHASING:

The complete classified business section in the back of this directory, makes available all sources of goods wanted; assists in selection of most reliable and satisfactory firms to deal with; the nearest companies to facilitate delivery of purchases, and determining the proper official of firm to deal with. The standard classified headings are complete and show all firms under the proper headings. There are many special headings marked with an asterisk (\*) showing firms in display type. These firms are progressive and desire a more complete classified representation of their products.

## 5. GENERAL INFORMATION:

**The Alphabetical Directory lists**—Persons' full name and correct spelling, occupation, where employed, street address of residence, if married gives wife's name, head of house or roomer, renting or owns home. Lists all corporations showing officers, all partnerships showing partners, all individual business showing proprietor. All public officers, clubs, associations, etc.

**The Householders' Street Directory** shows every street—a description of its location, all occupants on each street, the ownership of the property and all intersecting cross streets.

**The Classified Business Directory** shows all business in the city arranged under heading most descriptive of the nature of the business.

**TRADE!** You like  
to patronize those concerns  
who are in business to stay.

It's human to expect that such business establishments always stand back of the wares they sell.

The advertising in this Directory is suggestive of the stability and permanency of the advertisers.

Frauds, fakes, get-rich-quick and other schemers have little use for directory advertising. It lives too long.

The modern City Directory is a business institution. It occupies a place peculiarly its own. It is as necessary to the progress and development of a city generally as anything naturally would be which deals with such a fundamental as the citizens themselves.

If you are not advertising your business in the Directory, may we explain how and why it will pay you?

**THE PUBLISHERS**

# This Publication Is The Product of a Member of

—thus assuring you the ultimate service that skill and care can produce in the way of City Directories or other reference media, and providing protection against fraudulent advertising schemes which operate under the name of Directories.

The following "Standards of Practice," adopted at the inception of the Association of North American Directory Publishers in 1898, and strictly adhered to over the years, is your guarantee of satisfactory Directory Service.

The publisher of a Directory should dedicate his best efforts to the cause of business uplift and social service, and to this end pledges himself:

1. To consider, first, the interest of the user of the book.
2. To subscribe to and work for truth, honesty and accuracy in all departments.
3. To avoid confusing duplication of listings, endeavoring to classify every concern under the one heading that best describes it, and to treat additional listings as advertising, to be charged for at regular rates.
4. To increase public knowledge of what Directories contain; to study public needs and make Directories to supply them; to revise and standardize methods and classifications, so that what is wanted may be most easily found, and the Directory be made to serve its fullest use

as a business and social reference book and director of buyer and seller.

5. To decline any advertisement which has a tendency to mislead or which does not conform to business integrity.

6. To solicit subscriptions and advertising solely upon the merits of the publications.

7. To avoid misrepresentation by statement or inference regarding circulation, placing the test of reference publicity upon its accessibility to seekers, rather than on the number of copies sold.

8. To co-operate with approved organization and individuals engaged in creative advertising work.

9. To avoid unfair competition.

10. To determine what is the highest and largest function of Directories in public service, and then to strive in every legitimate way to promote that function.

\$100 Reward will be paid by the Association of North American Directory Publishers for the arrest and conviction of any person or persons engaged in the publishing, collecting or canvassing for any fraudulent or fake directories.
